

Beckley Parish:

Being a small parish this may not help, but Beckley is nominating nearly all its verges in lanes as wild flower areas which will require only one cut annually, but we will have to do a little maintenance on them, but not cutting. Verges along our A and B roads I understand, for safety reasons, ESCC must cut twice a year. I'm still looking into this.

Email from Contractor: Honeysett Groundcare

My name is Tim Honeysett and I own and run Honeysett Groundcare.

Honeysett Groundcare is based in Herstmonceux, and carries out commercial and domestic grasscutting, hedgecutting and fencing.

Currently Honeysett Groundcare has the verge cutting contract for Herstmonceux parish council verges with all the relevant qualifications and insurances in place,

This Email is an Expression of Interest in tendering for any Grasscutting work you may have up for tender.

Many thanks for your time and I look forward to your response

Kind regards

Tim Honeysett

From Rother:

Dear Parish Clerk

You are no doubt aware that for the past few years Rother DC has contributed to the cost of grass verge cuts across the district. At its recent meeting the Council decided not to offer this contribution for 2020/21 onwards. I believe that East Sussex County Council will be in touch with Town and Parish Councils to see how each of you wishes to take the matter forward.

Regards

Malcolm
