Community Speedwatch (CSW) is a national initiative where active members of local communities come together and, with the support of the Police and the Parish Council, monitor the speed of vehicles using speed detection devices.

Vehicles exceeding the speed limit are referred to the Police with the aim of educating drivers to reduce their speeds.

In cases where education is blatantly ignored and evidence of repeat or excessive offences is collated (even across county borders), enforcement and prosecution follow.

Speeding is not just a local phenomenon - neither is Speedwatch.

Speeding continues to be a concern for many communities in both rural and urban environments, and ours is no different. Therefore, Community Speedwatch is not restricted to villages and rural towns. Neighbourhood Policing Panels have an important role to play in developing safer communities and the adoption of Speedwatch schemes assists them to more easily achieve their goals. Volunteers receive appropriate training, and are supported by neighbourhood policing team (NPT) staff. The scheme aims to cater for the problem of real or perceived speed related offending, and through partnership with the community it is used in circumstances that are necessary, justifiable and proportionate in order to:

1. Reduce death and injury on the roads.
2. Improve the quality of life for local communities.
3. Reduce the speed of vehicles to the speed limit.
4. Increase public awareness of inappropriate speed.

Speedwatch activity is not about interfering with neighbours' behaviour; it is a proactive solution to improve the safety and quality of life for everyone in the community.

Speeding continues to be a concern for many in our community and we are always on the lookout for volunteers who are keen to help educate erring drivers.

All we ask is that you commit to a couple of half hour sessions a week to the team.

Full training is given and you will have the pleasure of knowing that you are making a huge contribution to the safety and wellbeing of our community.
